11. (Confidential - LLM) Mr. George Murphy, Joint Committee on Atomic Energy staff, called in connection with a reply he had prepared for one of the members to a letter from the chairman of the Pakistan Atomic Energy Commission calling attention to an 11 May 1970 report in the London Times that a group of scientists and others in India had recommended that India build an atomic bomb. The reply states that there is no evidence of an official change in Indian policy in this matter, and Mr. Murphy wanted to check with us before its release. Based on discussion with [redacted] OSI, I informed Mr. Murphy that we knew of no change.
